

Neurophysiologisches Seminar

Sommersemester 2026

Conference
room
Ground floor,
Herzzentrum

*Donnerstags 17:15 - 18:45
Face-to-Face & per Zoom-Konferenz
2 CME Punkte*

- 26.03.26** **Dr. Roderick Maas** (Radboud University Medical Center, Nijmegen, The Netherlands): „Characterizing and Quantifying Peripheral Nervous System Degeneration and Cognitive Impairment in SCA3.” [As part of the Cerebellum minisymposium Essen]
- 16.04.26** **Prof. Dr. Vincenzo Romano** (Erasmus Medical Center, Rotterdam, the Netherlands): „Stage-dependent Cerebrocerebellar Communication during Sensorimotor Processing.”

- 23.04.26** **Prof. Dr. Fahad Sultan** (Umeå University, Umeå, Sweden): „Multiple-step Evolution of the Brain through Cerebellar Novel Frames of Action.”
- 30.04.26** **Prof. Dr. Ilana Nisky** (Ben Gurion University of the Negev, Beer Sheva, Israel): „From Sensors to Skin: Detecting Loss of Balance and Using Tactile Feedback to Enhance Balance Control.” [via Zoom]
- 28.05.26** **Prof. Dr. Miquel A. Fullana** (Hospital Clínic de Barcelona, Barcelona, Spain): „How the Human Brain Learns to Fear and Why it Matters.”

- 18.06.26** **Prof. Dr. Nikolaos Priovoulos** (Maastricht University, Maastricht, The Netherlands): „ Pushing the Limits of Cerebellar Imaging with ultra-high-Field MRI.”

- 02.07.26** **Priv.-Doz. Dr. Martin Kronenbürger** (Campbell Family Mental Health Research Institute, Centre for Addiction and Mental Health, Toronto, ON, Canada): „Cerebellum and Social Anxiety Disorder: Functional Imaging Data.” [via Zoom]
- 09.07.26** **Prof. Dr. Opher Donchin** (Ben Gurion University of the Negev, Beer Sheva, Israel): „ Statistics You Can Trust: Why You Should Embrace Bayes.”
